

# NOVACENT (\$NVCT) – WHITE PAPER

## A Decentralized Charity & Governance Ecosystem on the BNB Smart Chain (BSC)

---

### 1. ABSTRACT & VISION: RADICAL TRANSPARENCY

Novacent (\$NVCT) is not just a token; it is a movement for radical transparency in the charity sector. Our heart beats for people, and our mission is to use technology to change lives all over the world.

**Our Mission:** We are working hard to direct the flow of funds straight to the projects in need. Our goal is to ensure that the maximum amount of the allocated budget reaches its destination to create real-world impact. We focus on building a direct bridge between the blockchain and those who need help.

**Visual Accountability:** We don't just ask for trust; we show the results. Every project is documented through **on-site photos on our Impact Page** and detailed **videos on our official YouTube channel**. Every initiative is fully logged, protocolled, and remains transparently accessible to the public. The Tribe sees exactly where the help arrives.

---

### 2. THE NOVACENT SOLUTION: EXECUTION & TRANSPARENCY

**Execution Strategy:** To maximize the impact per dollar, we prioritize working directly with local contractors (e.g., specialized drilling companies for water wells). This ensures that funds are spent effectively on the ground.

- **NGO Fallback Rule:** We remain flexible. In complex situations where direct execution is not possible due to safety or logistical constraints, we use established NGOs as a fallback to ensure the aid reaches the people securely.

**The Novacent Ledger:** To provide a level of transparency that goes beyond the blockchain, we are building a dedicated **Monthly Impact Ledger**. This page provides a detailed monthly breakdown of the costs and expenditures for every single project.

- **Visual Audit:** Our YouTube journey, the Impact Site, and the **Novacent Ledger** serve as the visual and financial audit for our investors, bridging the gap between digital tokens and real-world change.

---

### 3. TOKENOMICS & TRUST ARCHITECTURE

**Total Supply:** 260,888,000 \$NVCT | **Target Supply:** 200,000,000 \$NVCT

### **The 3% "Impact Tax" (Hardcoded):**

- **1.0% - Tribe Vault (Charity):** Community-voted projects.
- **1.5% - Ecosystem & Growth:** Marketing and scaling.
- **0.5% - Rapid Response Fund:** Immediate crisis intervention without voting delays.

**Safety-First Vesting (60,000,000 \$NVCT):** Secured via PinkLock with a 12-month linear unlock.

- **1/3 (10% Total Supply):** Team & Founder Vesting.
- **2/3 (20% Total Supply):** Strategic Impact & Ecosystem Fund (The "Impact Engine").

**5-Year Strategic Burn (57,000,000 \$NVCT):** Locked in a dedicated burn vault and strategically removed from circulation to reward long-term holders of the Tribe.

---

## **4. GOVERNANCE: POWER TO THE TRIBE**

Novacent is a community-driven ecosystem:

1. **Proposal:** The Tribe or Team proposes a project.
2. **Vote:** \$NVCT holders vote on the allocation.
3. **Execution:** The project is funded and monitored.
4. **Proof of Impact:** Full documentation is published via the **Novacent Ledger**, YouTube, and the Impact Page.

**Conclusion:** Novacent is built on a foundation of heart and honesty. We are here for the long haul to change the world, one project at a time.

**Power to the Tribe.**
